

Indiana's no call list work's just great as is .
Please do not make any changes that would make it easier for
unwanted sales calls to bother me at home.
We work hard all day and do not need or want these calls.
We get tons of junk mail and e-mail.
My family does not want any call to sell us stuff,
that we do not want or need.
We want what little privacy we have without unwanted phone calls!
